EXPERIENCE

Associate

Cognizant 03/2020 - 09/2023 Chennai, India

- Developed scalable microservices using Java and Spring Boot in a cloud-native architecture deployed on AWS.
- Designed RESTful APIs to enable secure and efficient communication between systems.
- Built CI/CD pipelines using DevOps to automate deployment and testing processes.
- Integrated Kafka and RabbitMQ for high-throughput asynchronous communication across services.
- Optimized SQL (Oracle/PostgreSQL) and NoSQL (MongoDB) database interactions for high availability.
- Collaborated in Agile/Scrum ceremonies, refining product backlogs and delivering secure, production-ready features.
- Ensured GDPR compliance in handling user data across services.

Full Stack Developer

Aequalis Software Solutions Pvt Ltd

10/2017 - 02/2020 Chennai, India

- Engineered backend microservices using Java, Spring Boot, Hibernate; deployed via CI/CD pipelines.
- Managed data persistence using Oracle and Cassandra; ensured ACID-compliance and low-latency reads.
- Automated testing and deployment using Jenkins, JUnit, Maven, and Git.
- Participated in Agile teams and implemented features with fast iteration cycles.
- Worked closely with cross-functional teams including QA, DevOps, and Product Managers.

Java Developer

DXC Technology 11/2016 - 07/2017 Chennai, India

- Improved healthcare data exchange efficiency by 15% through development and testing utilizing JSON/XML.
- Enhanced both front-end and back-end using Java, Hibernate, JavaScript, and jQuery.
- Created automation tools using Java and Corticon for improved business rule execution.
- Participated in unit and integration test automation, improving code reliability and maintainability.

EDUCATION

MSc Data Science

IU International University of Applied Sciences

10/2023 - 10/2024 Berlin, Germany

Bachelor of Engineering - Computer Science

Anna University 04/2012 - 06/2016 Tamil Nadu, India

SUMMARY

Senior Backend Engineer with 6+ years of experience designing, building, and maintaining scalable microservices and enterprise systems using Java, Spring Boot, and cloud-native technologies. Proven expertise in distributed architecture, API development, asynchronous messaging, CI/CD, and DevOps. Adept at working in Agile environments and collaborating across product, QA, and DevOps teams. Passionate about clean code, backend scalability, and engineering excellence.

CERTIFICATION

AWS certified developer - Associate

SKILLS

Maven	Java	Hibernate
Spring Boot	Spring Security	
SpringBatch	Flyway/Liquibase	
Rest API	Microservices	Kafka
Circuit Breaker	RabbitMQ	GitHub
CI/CD	Jenkins	Agile
Jira	Scrum	Angular
MongoDB	MySQL	SQL
PostgreSQL	Docker	Kubernetes
Kibana	TDD	Elasticsearch
JUnit	AWS (EC2, S3, Lambda)	
Understanding of GDPR	GraphQL	
HTML	CSS	JavaScript
Python (Pandas	NumPy	SciPy
Scikit-learn)	NodeJS	Typescript

LANGUAGES

English	Proficient	●●●●●
German	Intermediate	●●●●●

AWARDS

Secured a long-term partnership and boosted revenue by leading a team on a mission-critical software project.

Achieved 5-star top ratings twice. Recognized as the best performer with the prestigious Gold Award for two consecutive years.

PROJECTS

Credit Card Analysis

- Improved fraud detection accuracy, reducing financial risks through advanced modeling techniques and pattern recognition.

Go-To-Market Strategy Analysis for Cab Companies

- Improved investment decisions by delivering data-driven insights on market viability and competitor positioning.

AI-Based Intrusion Detection System

- Developed an AI-driven IDS, reducing threat response time and improving accuracy by using Random Forest and Neural Network models.

Book Recommendation System for Improved Sales

- Book Recommendation System for Improved Sales Improved book sales by 25% through developing a machine learning model for personalized recommendations.
